Partnership Proposal - Database Access to Facilitate & Assist in my new Startup Small Business Venture regarding the Global Investigations to help All Users Recover their Digital Online Identity Theft and Cyber Fraud Prevention - as I can claim I am a Survivor Digital Human American Adult Slave wrongfully imprisoned by hired mercenary professional web developers who gained access to my 20+ year Gmail account(s) from a court ordered required shared email attachment of a civil litigation case I'm currently involved where the opposing litigants own a reputable American Tech Company who used this opportunity if the court required email shared document to also "Hack" my Gmail account, thus gaining access and control of all my wifi or Bluetooth AI enabled devices and further controlling all my AI devices by my now then Comprised Apple ID and Gmail accounts and Yahoo and Amazon accounts, then making me a "Child Profile on all Social Platforms such as Facebook and Instagram and also as a Counterfeit Fake Current Employee of the same company who I am was/now currently in litigation against (unknowingly at the time of that fraudulent Counterfeit web current employee persona) , and once I investigated that information that all linked to my LinkedIn account and also discovered the Hackers had stolen and Counterfeited my recently Deceased Father who the company I am in litigation with certainly had information on since they sent the funeral home flowers and then wrongfully terminated me 2 weeks later to falsely cover up over 2 years worth of discrimination against me, this using my dad's stolen Gmail account to control all my American Adult Human Civil Rights and certainly Zero Privacy Rights since 08/10/2024 for approximately 5 months and where I was able to Escape and Liberate myself from my Digital Dark Web Prison and Human Slave POW Azure Power Shell Prison Camp, that had Military Style Scheduled Electronic Communications (i.e. Email, Text, Instant Message, and Phone calls) on a Military Style Controlled "Forced Screen Downtime" as if I am a Child Profile like how the same Domestic Cyber Terrorist Hired Mercenary Professional Web Developers "aka" Hackers from the same company I am in litigation against.....because it was my stolen identity and my stolen new company I created out of pure panic and was under sail severe and heavy Cyber attack on all the intellectual assets and priory of 2,500 iPhone and PC Desk Computer "Screenshot" Suspected Evidence I had obtained during my "Forced Downtime" and nightly Dark Web "Un hacking" attnrotd I also tried escaping from 10pm-7am with atomic accuracy since my prison guards criminally programmed AI Sentinel Bots....and I was able to finally "Unhack Myself" and Escape my Virtual Prison and Dark Web Duncamp Dungeon.... As because the same criminally programmed AI Dark Web Guard Prison Bots that were designed to hide and surpesss my true human idbeitty and new Microsoft/Google Admin business (created solely out of panic and duress and my futile attempts to "Preserve Evidence" and prevent the further crimi AI attempts of them erasing my Digital identity)....I Escaped because those same AI Bots started to recognize me and honor my Admin Credentials of the company and it's assets that the Cyber Terrorists were trying to conceal and erase and stop my ability to submit court documenrs to use against them in our current litigation case.....which that same brand new company in which these Cyber Terrorists and Professional Web Developers had Hacked and stolen the identity of, is 1 guy who has a 20 year career of Mortgage Underwriting under his belt of experience in reviewing fiancial documents and some comiurer experience and also has 10 years experience working in Fraud Investigations at Wells Fargo in their Fraud Investigations Department and Escalated Customer Inquiries.....this hacked guy also started just founded and created with Microsoft/Google (now Apple) his same newly established "Cyber Fraud Investigation Business" which has had to adapt and change the name several times to evade his Cyber Hacker Professional Web Developing Captors....where I think I finally settled on crating safe identity hacking proof website (since it's been under severe heavy Cyber attack since it's inception 08/20/2024) I believe my new company has proven its "True Grit" against Cyber Terrorists and the new age of AI Intelegence whether it is for Government Homeland Security, or wrongful criminal intent...."<https://ProSafeCyberFraudBountyHunters.com>" and as referencing of my favorite Pink Floyd Lyrics...."Welcome 2 the Machine".....and the whole business creating and Cyber attack circumstances of the founding of this new Cyber Fraud Investigator Business also being Hacked and being under Severe Heavy Cyber Attack while it is being founded, created, built, protected, and finally almost secured.....is also "Ironical! All the while reporting these crimes and making numerous complaints to the infiltrated at forms in which the new business sits.....ZERO Customer Help or Support or Security from

both Microsoft or GitHub, some support from Google at the end, and a lot of help from Apple regarding their devices....
